Warranty Manual

Foreword

Congratulations on your choice of GAC Motor and sincerely thanks for it!

We are sure that GAC Motor will bring you greater driving pleasure. In order to keep your vehicle in good condition for a long time, please be sure to go to the GAC Motor authorized shop for regular maintenance in accordance with “Regular maintenance schedule” in this manual, where quality services will be provided for you at a reasonable price, and the technical personnel who have received professional training from GAC Motor Co., Ltd. (hereinafter referred to as “GAC Motor”) will perform the maintenance according to the specific operation specification.

This manual is a certificate for the warranty and maintenance of your vehicle. Please enter the user profile carefully in this manual and keep the manual properly. You are requested to present this manual when you accept the vehicle maintenance or apply for the vehicle warranty in the GAC Motor authorized shop.

Best wishes for you: hope GAC Motor can bring you pleasant driving experience!

Warranty Policy

Basic warranty period: 5 years or 150,000km, whichever comes first.

Warranty Terms on Wearing Parts, Lubricating Oil and Operating Fluid.

- When the wearing parts which are initially malfunctioned parts and the malfunction are resulted from the defects of the materials or made during manufacture. The wearing parts and warranty period are set forth below:

Wearing Parts	Warranty Period
Air Filter Cartridge, Oil Filter, Fuel Filter, Air-Conditioner Filter, Bulb, Spark Plug, Fuse, and Tire.	3 months or 5,000 km, whichever comes first
Driving Belt, Friction Plate, Cutch Disc, Windshield Wiper, Brake Disc	6 months or 5,000 km, whichever comes first
Rechargeable Battery, Battery of Remote Control	6 months or 10,000 km, whichever comes first

- Lubricating Oil, Operating Fluid etc. Lubricating oil or operating oil such as engine oil, transmission gear oil, differential gear oil, steering gear oil, power steering fluid, automatic transmission fluid, brake fluid, clutch fluid, shock absorber fluid, cleaning fluid, lubricating lipid, coolant, battery electrolyte and refrigerant are not covered by the warranty.
- Followed by warranty repair, all parts and oil or fluid listed above which are needed or required to be replaced can be considered as part of the warranted items.

Warranty considerations:

1. The warranty period shall start from the date when the purchase invoice is issued.
2. The Warranty Certificate shall be transferred together with the transference of the vehicle ownership, and the warranty liability will not change due to such ownership transference.
3. This certificate shall be filled in completely and sealed by the dealer to take it into effect, and any alteration will invalidate this certificate

1. Vehicle handover

1.1 PDI

The vehicle indicated in the Warranty Certificate attached in this manual has been subjected to PDI in accordance with the provisions specified by GAC Motor Co., Ltd. Please ask for the PDI checklist from the authorized shop for specific inspection items.

Inspection date:

Inspector:

1.2 Vehicle handover

Before delivery, the GAC Motor authorized shop will inspect and clean the vehicle completely and submit the PDI checklist to you for your confirmation and signature.

If you are unsatisfied with the condition of the delivered vehicle, please inform the GAC Motor authorized shop and ask for re-adjustment.

Please be sure to check whether the Warranty Certificate is provided when you accept the vehicle; if not, the free first maintenance service and warranty services will be invalidated.

Followings are to be handed over with vehicle (e.g.: <input checked="" type="checkbox"/> Yes <input checked="" type="checkbox"/> No)

It is hereby confirm that I have checked the items listed above and accepted the purchased vehicle.	
Signature of vehicle owner/ authorized person:	
*Please pay attention to checking, if any, the operation instructions provided for your vehicle.	

2. Warranty instructions

2.1 Warranty instructions

Warranty object

Vehicles manufactured by GAC Motor Co., Ltd., and sold and serviced by the GAC Motor authorized shop.

CAUTION

If you do not fill in the warranty copy and make the warranty registration, we have the right to refuse to provide warranty services for you.

The warranty services are provided to the owner of a new vehicle (if the vehicle owner changes within the warranty period, the warranty is still valid).

Warranty period

The warranty period refers to the period or mileage calculated from the date the dealer issues the purchase invoice.

Basic warranty period of EMKOO: 60 months or 150,000 km (whichever comes first).

Basic warranty period of EMKOO: 12 months or 100,000 km (whichever comes first).

Warranty coverage

The warranty liability of GAC Motor is to repair products, including:

1. Repair or replacement of parts being considered defective by GAC Motor.
2. Repair of paint on vehicle body being considered defective by GAC Motor.
3. Man-hour cost for the above repair.

Warranty terms

1. When verifying the warranty items, the GAC Motor authorized shop will consider the following conditions that are outside the warranty coverage of the GAC Motor:
 - a) Use of a vehicle in a country or region other than that where the vehicle is sold.
 - b) Vehicle damage caused by the maintenance, repair and adjustment performed in places other than the GAC Motor authorized shop.
 - c) Vehicle defects caused by use of parts, lubricating grease and liquids other than genuine ones specified by GAC Motor.
 - d) Vehicle damage caused by negligence, improper handling and the driving methods other than those specified in the Owner's Manual or the operation outside the limit operating range (such as maximum load and seating capacity) of the vehicle.
 - e) Vehicle damage caused by application of corrosive or low-quality cleaning agent.

- f) Modification, addition, adjustment and removal of the vehicle prohibited in the Owner's Manual without the approval of GAC Motor.
 - g) Vehicle damage caused by abnormal use, improper handling, negligence or the operation performed by the unqualified or unskilled driver and the application for races (such as vehicle race or motor rally).
 - h) Sensation problems that do not affect the vehicle performance.
 - The warranty of GAC Motor does not cover the defective sensation problems that do not affect the quality, function or performance of products.
 - i) Any damage caused by improper storage or transportation.
 - j) Vehicle defects caused by the natural disaster, fire, traffic accident, theft and the secondary damage incurred.
 - k) Vehicle damage caused by the environmental conditions other than the normal operation conditions of household automobiles (such as air pollution, chemical compound, guano, sea salt or other corrosive substances).
 - l) Vehicle corrosion or fault caused by the water immersion.
 - m) Vehicle surface corrosion caused by the flying stone or external scratch.
2. The warranty does not cover the maintenance items, fluids and auxiliary materials that are not necessary

for the warranty and maintenance.

3. The warranty does not cover the following incidental charges.

For example:

- Expenses for communication, mediation, meal and accommodation because of a fault.
 - Any relevant personal injury or property damage.
4. The GAC Motor reserves the right to determine the repair methods and warranty coverage.
5. All parts under the warranty coverage are the property of GAC Motor.
6. The fuel, lubricating grease and fluids specified by GAC Motor shall be used.

CAUTION

To avoid the dispute over the warranty liability, please note that:

- **The dispute over the warranty liability may arise if the vehicle is not subject to regular maintenance and inspection at a GAC Motor authorized shop according to the Owner's Manual and the Warranty Manual.**
- **The dispute over the warranty liability may arise if the user changes the original state of fault deliberately after the fault occurs so that the fault cannot be identified or the user has fraudulent behavior.**

2. Warranty instructions

2.2 Owner's responsibilities

1. Subject your vehicle to first maintenance at a GAC Motor authorized shop within 5,000km or 3 months (whichever comes first).
2. Make sure that your vehicle is maintained and inspected at the GAC Motor authorized shop according to the regular maintenance schedule in this manual.
3. Get any fault of your vehicle inspected and repaired at the GAC Motor authorized shop in time, which may be covered under the warranty.

CAUTION

- **The dispute over the warranty liability may arise if the vehicle is sent to any places other than the GAC Motor authorized shop for maintenance and repair.**
- **The vehicle that has not received first maintenance (referring to the maintenance within 5,000km or 3 months (whichever comes first)).**

Please bring this manual with you when you go to the GAC Motor authorized shop.

2.3 Obligations of GAC Motor authorized shop

Fill in the Warranty Certificate contained in this manual and explain the warranty procedures of GAC Motor vehicle when delivering a new vehicle to the user.

Explain the importance of regular maintenance fully to the user.

Ensure that any maintenance and repair can be completed according to the standard specified by GAC Motor, whether they are covered under the warranty or not.

For the damage or defects under the warranty coverage, the authorized shop should provide necessary vehicle repair or treatment to the user.

3. Maintenance instructions

3.1 First maintenance agreement

The first maintenance shall be completed within 5,000km or 3 months (whichever comes first).

The first maintenance is provided by GAC Motor free of charge. Please bring this manual and the first maintenance electronic voucher to the GAC Motor authorized shop for the first maintenance. First maintenance items include:

1 Replacement:

- a. engine oil, and drain bolt washer and oil filter
- b. transmission press filter element, press filter cover oil seal (WDCT)

2. Adding the cleaning agent of fuel system

3. Inspecting and adding:

- a. Coolant
- b. Brake fluid
- c. Windshield washer fluid

4. Checking:

- a. Battery charging condition
- b. operation of parking brake and brake pedal
- c. dust cover of transmission drive shaft for leakage or damage
- d. tightening condition of wheel fixing bolt
- e. wear pattern and pressure of the tire/ hub (including

the spare tire) (replace it when necessary)

- f. whether the connection of steering tie rod is firm
 - g. condition of the underbody
 - h. Check the tightening condition of chassis bolt
 - i. operation of wiper/washer (adjust the nozzle when necessary)
 - j. operation of interior and exterior lamps and electrical consumers of the vehicle body
 - k. thickness and wear pattern of the brake disc and brake lining
 - i. Check whether there are leaves or other debris on the surface of the wiper cover
5. Clean the air cleaner element.
6. Self-diagnosis:
- a. Read OBD in-use monitoring data
 - b. Query fault information with professional diagnostic equipment

3. Maintenance instructions

3.2 Regular maintenance schedule

If necessary, perform the maintenance according to the procedures for refilling, cleaning, adjustment, lubrication, repair or replacement after the inspection.

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	km x 1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
★ Change the engine oil	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Replace the engine oil filter	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the spark plug	Every 20,000 km										
Replace the spark plug* ¹	Every 60,000 km										
Check the V-ribbed belt	Every 20,000 km or 12 months										
Replace the V-ribbed belt	Every 60,000 km or 36 months										
Replace the canister filter	Every 60,000 km or 36 months										
Add the fuel system cleaning agent	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check and clean the air cleaner	First at 5000 km or 3 months, and inspection free thereafter										
Clean the air cleaner cover and replace the air cleaner element	20,000 km or 12 months										
Check the cooling system for leakage and add the coolant when necessary	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
★ Change the engine coolant	Every 40,000 km or 24 months										
★ Change the intercooler system coolant	Every 40,000 km or 24 months										
Check the transmission fluid (WDCT)	Exemption										

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	km x 1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
Change transmission fluid (WDCT)	First at 50,000 km or 36 months, and thereafter every 60,000 km or 36 months										
Replace the press filter element (WDCT)	First at 5,000 km or 3 months, second at 50,000 km or 36 months, and thereafter every 60,000 km or 36 months										
★ Change the brake fluid	Every 40,000 km or 24 months										
Check the exhaust (only for leakage; the exhaust compositions are to be inspected during the annual inspection)	Every 10,000 km or 6 months										
Check the parking brake and the brake pedal (check the function and free travel of the pedal and parking brake)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the brake disc and brake lining (check their thickness and wear pattern, and replace them when necessary)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the wheel fixing bolt (check and tighten the bolt to the specified torque)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the wear pattern of the tire/ hub (including the spare tire), carry out tire rotation and correct the tire pressure when necessary	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the chassis bolts (check and tighten the bolts to the specified torque)	First at 5000 km or 3 months, and thereafter every 20000 km or 12 months										
Check the brake system (inspect the brake fluid pipes for leakage and inspect the brake fluid level and add the brake fluid when necessary)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the steering tie rod (check for loose tie rod end or leaky dust cover, and check whether the connection is firm)	First at 5000 km or 3 months, and thereafter every 20000 km or 12 months										
Check the underbody (check the fuel pipe, brake fluid pipe and underbody protective layer for damage, and the exhaust pipe for leakage and looseness)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Replace the fuel (gas) hose	Once every 96 months (replace it in advance if any crack is found)										
Check the suspension ball joint and dust cover (check for loose ball joint or leaky dust cover)	•	•	•	•	•	•	•	•	•	•	•

3. Maintenance instructions

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	km x 1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
Check the suspension assembly (check that the bush is free from aging and breakage, the connecting bolt and nut are tightened to specified torque and the linkage is free from deformation and cracks)		•	•	•	•	•	•	•	•	•	•
Check the wiper/washer (check the wiping cleanliness and replace the wiper blade if necessary, add the washer fluid, check the function of wiper/washer, and adjust the nozzle if necessary)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check whether there are leaves or other debris on the surface of the wiper cover	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the door check, dowel pin, door lock, engine hood/ liftgate hinge and latch (check their functions and clean the dust on the door check and lubricate the door check)	Every 10,000 km or 6 months										
Grease the power liftgate drive rod/ balance rod/ air spring ball socket (without removing two rods); required grease: lithium soap base synthetic hydrocarbon with high viscosity and operating temperature of -30°C~120°C	Every 10,000 km or 6 months										
Check the interior and exterior lamps and electrical consumers of the vehicle body	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Read OBD in-use monitoring data	Synchronized with vehicle maintenance										
Self-diagnosis (check the fault message with the professional diagnostic scan tool)	Synchronized with vehicle maintenance										
Check the battery (check the battery condition with the special tool, check if the connections to the positive and negative terminals of battery are firm and check the battery voltage)	First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months										
Check the headlamp (check the lamplight and adjust it when necessary)	Every 10,000 km or 6 months										
Check the A/C filter element	Every 10,000 km or 6 months										
Replace the A/C filter element		•	•	•	•	•	•	•	•	•	•

Perform the maintenance according to the specified mileage or time interval (whichever comes first)	km x 1000	20	40	60	80	100	120	140	160	180	200
	Months	12	24	36	48	60	72	84	96	108	120
Test run (performance inspection)		Each time maintenance is done									
Visually check the following items											
Dust cover of transmission drive shaft (check for leakage or damage)		First and second times at 5,000 km or 3 months, and thereafter every 10,000 km or 6 months									

- ★ : Be sure to check the levels of engine oil, coolant and brake fluid before driving.
- *: If there is impurity in the gasoline used, please replace the spark plug frequently. If the engine idle speed is unstable, the spark plug should be replaced immediately.

3.3 Supplementary maintenance under harsh driving conditions

The maintenance cycle is determined based on normal driving conditions. If the vehicle is used under one or more harsh conditions, it is necessary to increase the number of times of maintenance for some items or shorten the maintenance cycle.

Harsh driving conditions include the followings:

1. The vehicle often runs for a short trip (not more than 8km).
2. The engine is kept running at an idle speed constantly and the vehicle runs intermittently (for example: the vehicle is used as a taxi).
3. The vehicle runs in a muddy/dusty area or environment.
4. The vehicle is used for towing a trailer frequently, or luggage is placed on the roof luggage rack during vehicle running, or the vehicle runs on a mountain road.
5. The vehicle runs for a long time in extreme cold (below 0°C) or hot (above 35°C) climates.
6. The vehicle runs for more than 20,000 km every year or runs at high speed frequently;
7. The vehicle runs for a long distance at a low speed.

Item	Harsh conditions	Maintenance requirements
Change the engine oil and replace the oil filter	1,2,3,5,7	2,500km or 3 months
Change the engine coolant	3,5,6	40,000km
Check the wheel fixing bolt	1,2,3,4,5,6	5,000km or 3 months

Item	Harsh conditions	Maintenance requirements
Check the chassis bolts (check and tighten the bolts to the specified torque)	1,2,3,4,5,6	10,000 km or 6 months
Check the steering tie rod (check the clearance and check whether the connection is firm)	1,2,3,4,5,6	10,000 km or 6 months
Check the suspension ball joint and dust cover (check for loose ball joint or leaky dust cover)	1,2,3,4,5,6	10,000 km or 6 months
Check the suspension assembly (check that the bush is free from aging and breakage, the connecting bolt and nut are tightened to specified torque and the linkage is free from deformation and cracks)	1,2,3,4,5,6	10,000 km or 6 months
Replace the A/C filter element	3,5	10,000 km

Note

The maintenance frequency of air cleaner, V-ribbed belt and water pump belt shall be increased when the vehicle is used under harsh conditions.
